# Hole Saw

# **Tungsten Carbide Tipped** Hole Saw

Twist drills come in different materials and sizes, but above a certain diameter size it's no longer possible to drill with the twist drill. The amount of material to be cut would be too large and the drilling process would take extremely long. That's where the hole saws come in! With our multi-purpose TCT Hole saws you can drill holes from 11 mm up to 50 mm with portable power tools and stationary machines, without using extreme force or power. As the name suggests, the hole saw is hollow in the middle and only the cutting edges cut the material. This saves a lot of time and energy. The great thing about our hole saws is that they are very durable because they are Tungsten carbide tipped. Compared to bimetal hole saws they have a 10 times longer lifespan.

The hole saws are equipped with a pilot drill and ejector spring. The pilot drill allows simple centering and clean guidance in the material. With the ejector spring, the cut material is easily ejected from the hole saw. The safety stopper protects the workpiece (also a hex key is included for fixing the pilot drill).

- Material thickness for hand drills: max. 6 mm (1/4")
- Recommended hole diameter for hand drills: max 25 mm (1")
- Material thickness for portable magnetic drilling machines: max. 27 mm (1 1/16")
- · Parallel shank with 3 flats Fits all common drill chucks

#### Benefits of the TCT hole saw

- · Fits in your standard drilling machine
- · "Tapered point" twist drill
- 3 mm optimized wall thickness
- 13 mm 3-flat shank
- 27 mm Depth of Cut
- More cutting teeth

#### **Specifications**

Max. material thickness for drilling in:

- Steel with bench drill: approximately 20 mm (13/16")
- Stainless steel with bench drill: approximately 10 mm (3/8")
- Aluminium with bench drill: approximately 20 mm (13/16")

- up to Ø 18 mm (11/16"): 10 mm (3/8") shank
- From Ø 19 mm (3/4") and up: 13 mm (1/2") shank
- Max. depth of cut: 27 mm (1 1/16")
- Wall thickness: 3 mm (1/8")

#### 6 piece TCT hole saw kit

- TCT Hole Saw size Ø 12, 14, 16, 18, 20, 22 mm
- HSS-M2 twist drill x6
- Springs x6
- Hex key
